least one additional anionic associative polymer comprising at least one carboxylic acid group and at least one ester derived from an alkoxylated fatty alcohol and a carboxylic acid. In contrast to the statements in the Advisory Action dated November 1, 2002, this additional anionic associative polymer is not disclosed in either '295 or '195. As neither '295 nor '195 teach or suggest this polymer, the proposed combination of '295 and '195 cannot teach or suggest all of limitations of the present claims.

Accordingly, for at least this reason, Applicants maintain that this rejection is in error and respectfully request its withdrawal.

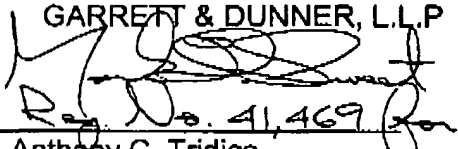

## **II. Conclusion**

Applicants respectfully request reconsideration of this application and the timely allowance of the pending claims.

Please grant any extension of time under 37 C.F.R. § 1.136 required to enter this response and charge those additional fees to our Deposit Account No. 06-916.

Respectfully submitted,
